

# ORE CITY ISD

## Integrated Pest Management Policy

OCISD Integrated Pest Management Policy is a strategy that focuses on pest prevention or suppression using a combination of tactics. This program is regulated by several state and federal agencies: The Texas Structural Pest Control Board is one of these agencies. Ore City ISD has contracted with Moore Pest Control to assist Ore City ISD in reducing any potential problems and enhancing the quality of life for students and staff. School policy states that no one except a state licensed applicator shall apply, store, or dispose of any pesticide on Ore City ISD property.
